Introduction

Seafish have developed this three-week basic seamanship induction course for new entrants to the fishing industry, consisting of two weeks shore-based training in basic seamanship (covering safety, gear and catch handling, net mending, rope work, stability, navigation and boat handling) followed by one week of mandatory safety courses (Sea Survival, Fire Fighting, First Aid, Health and Safety) plus the Seafish Basic Fishing Vessel Stability course (currently not mandatory). Although we cannot guarantee employment immediately following this course, assistance will be given to students to find berths on suitable fishing vessels so that they can go to sea and put their new-found knowledge into practice and gain practical experience of fishing.
