

Fishing College Training Leaflet

THE LAW - Mandatory Basic Safety Training for Commercial Fishers

ALL commercial fishers are required to attend one day courses covering sea survival, firefighting, first aid, health & safety and safety awareness. Your vessels insurance is invalid if all onboard do not have the required certificates.

THE LAW – New Entrant Commercial Fishers

Merchant Shipping Notice No 1813(F) states that all new entrants to the commercial fishing industry must attend a one-day basic sea survival course, BEFORE going to sea for the first time. If the candidate then remains in the industry, basic health & safety, first aid and firefighting courses must be attended within 3 months. Once basic safety training is complete, the safety awareness & accident prevention course must be attended within the first 2 years of service.

The Funding Situation - 2023

Seafish/MCA funds are still available, so refresher courses for commercial fishermen who have completed all of their basic safety training courses are continuing free of charge as before.

We have also planned the next 15 day courses for new entrants in east and west of the region.

Please contact us for funding application forms.

Under 16.5m Skipper Certificate

This certificate is available to all experienced commercial fishers who have attended the courses in Bridge Watchkeeping, Engineering Watchkeeping, Stability Awareness and GMDSS Short Range Courses.

Applicants must have completed basic safety training as mentioned above.

Bridge Watchkeeping – 5 day & 2 day – Free of Charge

Marine Engineering – 4 day & 2 day – Free of Charge

Stability Awareness – 2 day – Free of Charge

The courses above can also be studied on-line at seafishonlinetraining.co.uk

GMDSS Short Range Radio – Free of Charge for eligible commercial fishers

This course is also required in order to qualify for the Skipper Ticket

For the Unrestricted (Gold) skipper cert, the 5 day bridge/engine courses are required.

For the Restricted (Silver) skipper cert, the 2 day bridge/engine courses are required.

Full details are contained in MGN 411 (M+F)

The above skipper courses are available for those not eligible for funding but are payable. Prices are listed below.
